b. Skills/qualifications required:

c. Minimum military and civilian education required: BS Degree

d. Security clearance required: none

4. Project justification:

a. The project to be completed is serve as Operations Officer for a joint task force conducting road construction operations in Southeast Alaska.

(1) By 28 February, the soldier will have completed initial project inbrief and be familiar with the task force construction SOP.

(2) From 1 March thru 19 September, the soldier will work as the J3 for the task force. Duties will include assisting the commander with preparing the project CPM and preparing work estimates. The soldier will supervise road construction operations to include preparing mission directives and conducting quality control / assurance.

(3) This is an on-going IRT mission. Soldier may be rehired for next fiscal year based on job performance.

b. Assigned personnel, AGR, or DA Civilian, cannot accomplish this project because this is a joint task force conducting a mission IAW the parameters of the IRT program. No AGR personnel are assigned to this project.

c. The need for this project was created by DoD as part of the IRT program.

d. The project is vital to the function of this office and the ARNG for the following reason(s): This project is the largest IRT project currently being undertaken. Adequate staffing is vital to ensuring the success of this large undertaking.

5. Point of contact for this request is Jerry McDaniel, CPT, JFECC LNO 573-596-0131 ext 6-7320.
